

Hello Future Au pair,

We are an outgoing, relaxed family with a love of the outdoors, socialising and family activities. Both parents work full time; Jon is in Human Resources for a large American company and Rachel is a Wing serving in the Royal Australian Air Force. We live in the Australia's Capital Territory (ACT).

We enjoy spending time with the children and family outings. An example of an enjoyable day at home would be time spent playing with the children, going for a walk/bike ride as a family and maybe visiting some friends, or having friends over for a meal. We take the kids to soccer and swimming lessons on Saturday and spend time relaxing at home.

Our 8 year old son Cody loves to ride his bike, skateboard and rollerblade around the little lake when the weather is nice. He is a very kind, loving and energetic little boy, but he is quite shy with new people and experiences initially. We hope that you will provide Cody with a caring environment and new learning opportunities with regards to culture and language. Cody goes to the local school. We would need you to take him to school and pick him up each day. On Saturday mornings you will need to take Cody and Bekky to swimming lessons which run from 9am – 9.30am.

Our 5 year old daughter, Bekky is a very adventurous, happy and sweet little girl (and a bit cheeky!). She tries to keep up with her brother at every opportunity, and generally they are very close. She is a very funny and loves to make people laugh. She attends Pre-school for 2-3 days a week – she would be at home with your on the other days. We hope that our Au Pair will be able to provide Bekky with a caring environment and continue to help her learn and experience new things.

We would like to host an Au Pair to assist in the care of our children and to provide a young person with an opportunity to experience life in Australia. We take our responsibility as a host family very seriously and believe we can offer a loving home and show you life with an Aussie family. We hope that you will feel happy joining us.
